EXPERIENCE

Salsify, Boston, MA — *Product Manager*

NOV 2015 - APRIL 2016

- Worked closely with key clients and product leadership to create roadmap for new digital asset management section of Salsify platform that anchored strategy to increase billings from existing customers
- Managed development, beta testing, analytics plan, internal enablement, and customer roll-out of Lightboxes feature that allows customers to easily share diverse file types with external teams

Fullbridge, Inc., Boston, MA

Technical Product Manager — AUG 2014 - OCT 2015

- Led comprehensive platform redesign to overhaul experience for mobile web compatibility; managed project from stakeholder engagement to development and rollout in four months
- Launched Fullbridge's first successful international program outside the KSA at University College Bahrain
- Managed team of 14 designers, engineers, and remote QA testers across 3 time zones to consolidate four legacy apps with separate databases into a single database, multi-tenant, scalable platform; delivered on time and without service outages; designed and facilitated adoption strategy to secure company-wide buy-in
- Technical Lead on \$3M blended-learning business skills course development for Saudi Arabia's Ministry of Labor; launched pilot program on location in Riyadh to over 1,200 women students in vocational colleges

Junior Web Developer — FEB 2014 - AUG 2014

- Created interactive learning exercises and games using JavaScript, HTML, CSS to augment EdX capabilities
- Developed enrollment and payment portal features with Salesforce and Stripe API integrations
